

**A**ttendees of Hearth, Patio and Barbeque Association (HPBA) Expo have voted Infinity Canopy the 2015 Attendees Choice Award for "Outdoor Living Product Marketability". This year's HPBA Expo was held March 5th through 7th at The Music City Center in Nashville, TN. The event was attended by retailers, distributors and manufacturers of the industry from across the United States and other countries. Thirty-eight new products competed for the attendee's choice award in two categories of indoor and outdoor living products. Infinity Canopy was voted the winner in the outdoor living category, facing stiff competition.

This is the second award for Infinity Canopy, which was unveiled at the awning industry's main event, the IFAI EXPO in Oct. 2014. There, it won the Showstoppers Award for the best new product in the shade category. Unlike custom canopies, that are one piece, Infinity Canopy's unique modular design allows it to be as long and wide as needed, so it can adapt to any space. Infinity Canopy's shade panels are individual pieces that are available in many colors, allowing the canopy to be configured in one or multiple colors. The panels available in awning grade Sunbrella Canvas or Phifertex Mesh can be easily installed on the canopy's marine grade, stainless steel and aluminum frame and moved in minutes to create unique designs for any taste, style and need. One can start with an all-white canopy, replace some white panels with to blue for it to match their new furniture and add red panels to make it red, white and blue for the 4th of July. In a multi-colored canopy, the panels can be placed in various patterns to create new and unique designs such as striped or checkered. Every aspect of Infinity Canopy can be changed, even after installation, to create infinite configuration and designs, not possible by any other shade system.

**Dr. Alan Shargani**, the inventor of Infinity Canopy states, "This is a revolutionary shade system that is adaptable, versatile, and simply infinite. The professionals attending the IFAI and HPBA recognized the uniqueness of Infinity Canopy, and were clearly excited about its prospects for their business and clients, which is why we have won these awards," he says. "We were overwhelmed by their enthusiasm and humbled for their vote of confidence. We look forward to winning more awards in upcoming shows".
