NOTES         1. Conceptual Rendering: It is the customer's responsibility to ensure design accuracy and compatibility with site.         2. Unless specified otherwise, standard assembly hardware is included. Ground and wall attachment hardware must be supplied. For specific requirements, discuss with your Estimator.         3. Custom structures are designed using standard engineered connections. If a stamped plan set is required, request pricing from your Estimator. Design modifications/price changes may be required upon review by engineer.         4. Materials may require modification at installation.
