

# RETRACTABLE SCREENS

## EVERYBODY LOVES A LITTLE SHADE.

Enjoy your outdoor space more often with a Retractable Screen. This economical vertical drop screen blocks wind and rain, eliminates glare and reduces radiant heat inside and outside of your home. Available in four frame colors and several screen options, this is the perfect shade and privacy solution for gazebos, pergolas, outdoor kitchens and many other outdoor living spaces.

RETRACTABLE SCREEN WITH CABLE KIT IS RECOMMENDED WHERE LIGHT WINDS ARE COMMON.

RETRACTABLE SCREENS CAN BE USED TO REDUCE GLARE INSIDE HOMES AND BUILDINGS.

# RETRACTABLE SCREEN PRODUCT DETAILS

Retractable Screens allows you greater control over your outdoor or indoor environment by providing a shade barrier from the sun. Our shade system is made to order using only proven outdoor grade materials such as Textilene® mesh fabrics, electrostatic powder coated aluminum frame components and stainless steel assembly hardware.

## AVAILABLE SIZES

Our screen systems are manufactured to the inch in widths ranging from 3' to 15' and drops from 3' to 15'

## STANDARD FEATURES

### Frame Components:

- Two aluminum mounting brackets
- Galvanized steel roller tube
- 7:1 ratio manual gear
- 4' 7" winding brace
- Assorted gudgeons, bushings & idler pins for assembly
- Decorative aluminum weighted hem bar

### Fabric Curtain:

- Choice of Textilene 80, 85 or 90 mesh fabrics (Higher number increases shade factor)
- Surged boarders on all exposed fabric edges
- All welded seams (where applicable)

## STYLING OPTIONS

### Frame Colors:

### Fabric Colors:

- Black
- Brown
- Dark Gray
- Light Gray

Recommended for greater ease of use; includes:

- Somfy® tubular motor with 110V three prong plug
- Single channel hand held remote transmitter (Multi-channel remote available at extra cost)

### Cable Guided System

Suggested in Windy environments to expand product use; includes:

- Dual stainless steel cables up to 16' in length
- Two stainless Steel tensioning hardware components
- A choice of either wall or floor mount cable stay components

### Hood Kit

Provides a more finished look while extending the life of the unit.

- Hood kit is comprised of powder coated aluminum and adds 1.5" to overall width of the unit.
- Highly recommended on motorized units for increased weather protection

### Somfy myLink™

Only available on the motorized option, this device allows you control your screen from a smartphone or tablet as long as Wi-Fi connectivity is available onsite. Ask your sales representative for additional details.

## PRODUCT WARRANTY

- Frame components: 5 years
- Fabrics: 5 years
- Motor & electronic accessories: 5 years

# RETRACTABLE SCREEN BENEFITS

## PROVIDES SHADE

Provides shade and privacy to better help you enjoy your time spent outdoors.

## DURABILITY

Manufactured with the highest grade aluminum components.

## LOWERS ENERGY BILLS

When lowered in the summer months, the Patio Screen will reduce air conditioning costs. During cooler weather, open your curtains to allow the sun's heat to warm the interior.

## CONVENIENCE

The Retractable Screen can be operated by a remote control or manually. No matter what you choose, the Patio Screen will deploy quickly to provide instant privacy and relief from the sun.
